# FLIPIN' Cornhole®

## Instructions

### Board Set-Up

### How to Play

#### **Singles or Doubles Play:**

In both doubles play and singles play, one member of each team flips from one FLIPIN' board and the other members flip from the opposite FLIPIN' board. In singles play each player flips from opposite FLIPIN' boards from opposite sides of the playing table. All other rules are basically the same for doubles or singles play.

#### **Value of The Corn Bag:**

- Corn Bag In-The-Hole - A corn bag in-the-hole is a corn bag which is flipped through the hole in the FLIPIN' board or otherwise comes to rest inside the FLIPIN' board. A corn bag in-the-hole has a value of three points.
- Corn Bag On-The-Board - A corn bag that is not in-the-hole but lands with any portion of the corn bag resting on the FLIPIN' board is corn bag on-the-board. A corn bag on-the-board has a value of one point.

#### **Length of The Game:**

The FLIPIN' Corn hole match shall be played until the first team of players reaches (or exceeds) 21 points at the completion of an inning. The winning team does not need to win by two or more points.

#### **Cancellation Scoring:**

In cancellation scoring, corn bags in-the-hole and corn bags on-the-board flipped by opponents during an inning (singles play) or half of an inning (doubles play) cancel each other out. Only non-cancelled corn bags are counted in the score for the inning.

1. Corn Bags In-The-Hole – Corn bags in-the-hole cancel each other. A corn bag in-the-hole of one player shall cancel a corn bag in-the-hole of his competitor and those corn bags shall not score any points. Any non-cancelled corn bag in-the-hole scores three points.
2. Corn Bags On-The-Board – Corn bags on-the-board cancel each other. A corn bag on-the-board of one player shall cancel a corn bag on-the-board of the opponent and those corn bags shall not score any points. Any non-cancelled corn bags on-the-board score one point each.

In closing, just keep FLIPIN' and have a great time!
